

White Nylon Screw and Stand-off Set – M2.5 Thread

PRODUCT ID: 3658

Totalling 420 pieces, this White Nylon M2.5 Screw Set is a must-have smörgåsbord for your workstation. You'll have more than enough screws, nuts, and hex standoffs to construct your maker projects for days on end! M2.5 screws fit nearly all of the Adafruit breakout/development board mounting holes (2.5mm or 0.1" drill holes). These screws work handsomely with our Feathers, Adafruit breakout boards, Pi HATs and plates, and more! Since the screw set is nylon, you can file pieces down easily, and they don't conduct electricity or interfere with antennae/magnetometers.

This set comes in a nice snap-open box and includes:

- 120 x M2.5 hex nut
- 80 x M2.5 x 4mm screw
- 80 x M2.5 x 6mm screw
- 40 x M2.5 x 10mm screw
- 20 x 6mm F-F hex standoff
- 20 x 8mm F-F hex standoff
- 20 x 10mm F-F hex standoff
- 10 x 12mm F-F hex standoff
- 20 x 6mm M-F hex standoff
- 10 x 12mm M-F hex standoff

We have a similar set made of black nylon
