<u>CaliPile™ Demo Kit setup instructions</u>

For use with Excelitas` CaliPile™ Family

1 Unpacking

The Excelitas Demo-Kit comes in an antistatic packaging in order to protect the device during shipment. During unboxing and handling please make sure to follow the common ESD guidelines to prevent electrostatic discharge on the device.

Do not plug the electronic interface to your PC before having the corresponding software installed.(see chapter "software download")

2 Environmental Notice

The USB Interface electronic is shipped without the corresponding software package. Please follow the instructions below to obtain the latest software version. Moreover the necessity for a software medium becomes obsolete what helps us to reduce environmental pollution. Thank you for your cooperation.

3 Specification Sheets

If you did not receive the specification sheets by your local representative, please ask him/her to serve you with a copy.
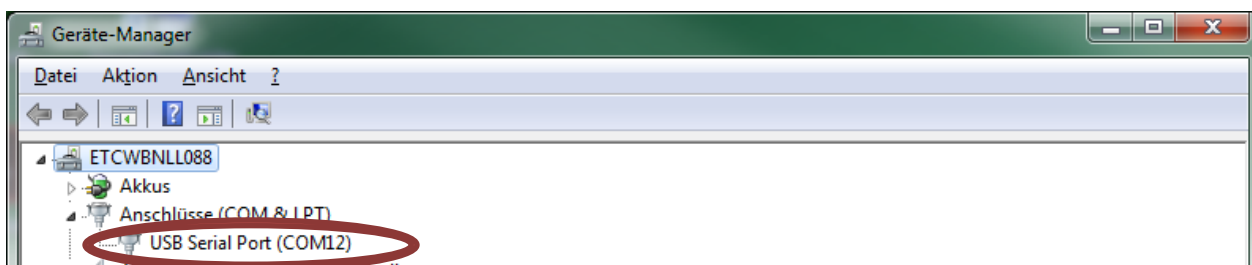

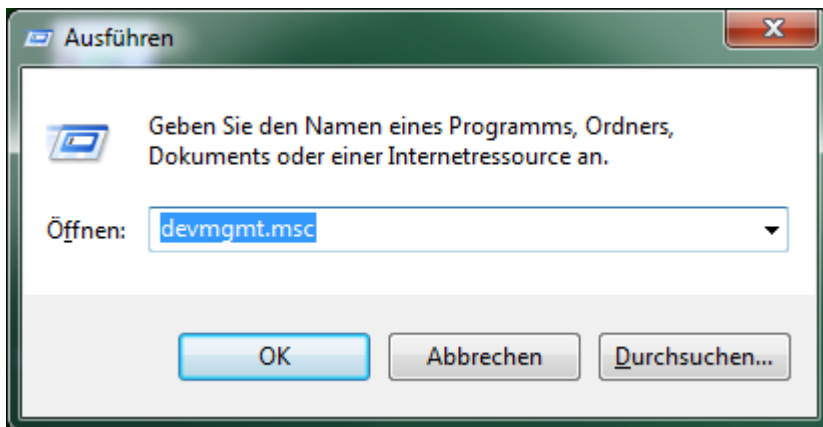

4 Software Download

Please download the software drivers for the FTDI hardware from the following website:

http://www.ftdichip.com/Drivers/VCP.htm

A copy of the driver is included in the latest software packages.

After installation you can connect the application set to the PC and the virtal COM port should be recognized by your system. You may check it in the device manager by pressing the *WindowsKey+R* and launching it via *dvmgmt.msc*:

After having installed the necessary drivers please download the necessary software package for the Demo-Kit. Go to: ftp://ftp.excelitas.com/ and enter the following account information:

username : **ftpIRDPub**

password(case sensitive) : **Ftp@irdpub**

navigate to the folder : *ftp.excelitas.com/Calipile_Demo_Kit/* In case you can't see this folder press F5 on your keyboard and insert the account information again. Download the complete software file *../Calipile_Demo_Kit/CaliPile_App_v.47.zip* or a newer version, unzip it to a folder of your choice and start the contained "CaliPile_App.exe".

The actual documentation on how to use the graphical user interface, troubleshooting and some additional information can be found in the same unpacked folder.
